**Public Indoor Playground opening soon**

**FITTEST CHURCH ON PLANET EARTH** — Grace Community Church in Goshen is building an indoor park which will be open to the public the week after Easter. Steve Sherman, vice managing director of MultiPlay USA, the company building the playground, said it is the largest the company has built in the U.S. According to Pastor Jim Brown, right, the park will be 6,000 square feet and three stories tall. Brown is reported to Brown, who said Grace's goal is to be the "fittest church on planet Earth." (Photo by David Hazelwood)

**FUN IN THE MAKING** — Grace Community Church in Goshen will be opening a new indoor park to the public soon after Easter and spring break week. It will be 6,000 square feet and hold to 10,000 people. (Photo by David Hazelwood)

By DAVID HAZELWOOD  
Staff Writer

"Jesus became man at Grace Community Church, 2015," C.B. Goshen, Jim Brown has maintained a focus on physical fitness and making out to meet the needs of the wider community. That means it now equipping with the construction of an indoor "park" providing space for families to Brown explained, "hang out and enjoy life together" all year round.

It is reported to open after Easter, a week following spring break.

According to Brown, the playground is based on a "multi-sports" design — akin to the athletic centers on the campuses across "American Ninja Warrior" — built by Lee Tipton from MultiPlay USA. The long components manufactured in Europe and America. The design features slides, walls, swings and trampolines, all added and presented with "hobby" in mind," Brown commented.

Editor Sherman, "MultiPlay USA," managing director, informed Brown the Grace Church playground is the largest he has built in the United States, 6,000 square feet and three stories tall. It will be used to hold 100 people.

An all-ages park will take the place of the old park, and it will have the same entrance, along with space for refreshment and relaxation.

Also part of the indoor park will be an event area, which can be used for special events.

The playground fits into another key component of Brown's mission: "Physical fitness, which he said is first because the promise about while still a missionary student at Grace College.

"The living God lives in us," he explained, and he sees it as a tragedy when we "render ourselves ineffective to be used by God because of poor health choices."

"We get one body and one chance... it's a big portion of our church."

The church already offers a five 60-minute runs and an indoor track for running or walking, and the playground will feature a history overlooking the play area equipped with benches and digital machines where parents can exercise while bringing an eye on their children.

Grace Community Church Board president said he will see the community's needs during the recent flooding, when it partnered with the Salvation Army and Red Cross to provide an emergency shelter. During the course of eight or nine days and nights, the shelter housed around 1,000 families, which were said Brown, "64, lived on and some for" before they were able to return to their homes or were otherwise relocated.

Since 1986 Grace Church's congregation has gone from a "week group" of 64 people in Grace House to 1,000 housed in a large complex on CR 30 with two large worship spaces featuring music media services.

"It's more than just Sunday morning," Brown said of Grace's community outreach approach. "If we packed everything up into Rubber tracks and they didn't want us, then we were too late."

The indoor park, event area and emergency shelter are all part of Grace's goal to be, said Brown, "a church in the community for the community."
